Depending on the number of runners who transfer, we may set off all the Pipley Mud Bath waves at 19:00. Announcements to be made on the day.

### Notes

There are multiple waves with the same colour race number, please pay close attention to the number range too in on the day announcements. Arrival times are suggestions. Number collection will remain open for each wave right up to the start of each wave.

Event Waves refers to the order the individual race waves will set off. You can collect your number from the desks which respond to the Event Wave, not your race wave. For example, Dark Horse 5km Wave 1 runners are in Event Wave 2, so will collect their numbers from desk 2, not desk 1. The briefing for each event will take place at the start line, 5-10

minutes before each wave start. There is no on the day prize giving. Prize winners will be contacted by the end of the week following the race by email.
