

Relish Running Races

Sunday 12th June

1) Road Diversion

There is a road closure from 08:30am - 10:00am on Sunday 12th June in Bishop Sutton, a village about 7 miles to the North-East of our race. If you are coming from Bath, or South Bristol direction, you may come across it. Please allow ~30mins extra time for your journey.

2) Walking Event - route overlap

A charity walking event has moved date this year, to avoid the Jubilee last weekend, to the same weekend as our event.

All runners will come across the walkers between 1.5km and 2.5km, and 7.5km and 8km, with their walkers heading in the opposite direction to our events. Unusually, they are all going to be wearing race numbers, but they have agreed to take them off during the section so as to not confuse you, however I imagine some will still be wearing them....

Their race numbers should be white background, black digits. All our race numbers have coloured backgrounds; blue, red, silver, grey, yellow, pink, orange and green.

We don't think this will be an issue as they will also be very spread out at this point, however it is worth highlighting. We are hoping you are still running well, particularly early on into your run, so the distinction between runners and walkers should be self evident.

More so than ever, the words I will be saying at the end of every race briefing are more important than ever; Everyone needs to follow our very well signed routes, whether you are towards the front, middle or back of the pack and...

Don't just follow the feet in front of you!
